How does Montaigne view
human nature? | eNotes -
Following the petition of his
father, Montaigne started to work
on the first translation of the
Catalan monk Raymond Sebond's
Theologia naturalis, which he
published a year after his father's
death in 1568 (In 1595, Sebond's
Prologue was put on the Index
Librorum Prohibitorum for its
declaration that the Bible is not
the only source of revealed truth).
